by M^r [Young] of the £44 17

The artist seems to have
succeeded very well
but I should like the
Baobab more like
the Photo - as it is
mentioned in Com.
Owen's book as 60 feet
in circumference - the
Fig tree in the middle &
Bombax trees behind
the house are very
characteristic in their
shapes & I have put
a note in pencil
on the enclosed drawing
to that effect
