My Dear M^r Murray
When you
asked about
appendices I
forgot my ob^{ns}
calculated by
Maclear. Admiral
Smythe's son in law

[0002]

has very promptly
undertaken the
editorship and
as he has found
out a new way
of correcting
Lunars and says
Maclears work
is admirable
I think it will
lend interest to
the book among the

[0003]

scientific. Printed
in small type
I suppose it will
not occupy
much space
Captain Toynbee
will perhaps
need a few
Nautical Almanacs
from you. I am
at Tete in correction
[of slips] will finish all
except the set up
sheets

[0004]

on Wednesday. I go
to Dublin on Thursday
Did you ever get
an opinion on
the grammar
perhaps the observations
will be a better
appendix than it
M^r Rae, Common
wealth newspaper
wants an early
copy for friendly
review. I said
I would send the order

[0005]

to you He is 37
Jamaica St. Glasgow
If you send
a copy to the
Editor of the
Edinburgh
pray let it be
one in which
an error in
page 96 is
corrected. He
has printed some

[0006]

sheets correctly.
I would like to
give Captain
Need & D^r
Smith a copy
each for
their kindness
in giving the
drawings -
I sent off this
morning page 544 Press

[0007]

and the last bundle
of slips but two
If you ever
were afraid
of my not
giving you
bulk you

are not so
now for I
have an index
I am &c
