[0001]

Kongone Harbour

28 February

1860.

My Dear Tom

I answer to a request from Robert I have sent some small specimens of natural history some of which are for you, and which as manifesting the wisdom and power of God you will do well to study. They go home by M^r Rae who will tell

[0002]

you all he can about us - so you may ask him any question you please. I enclose the horns of an African oryx shot by D^r Kirk and some other things to shew that you are not forgotten.

We are going up to the Makololo country soon and regret having been delayed so long in the lower part of the river. but the delay has led to our discovering

[0003]

a magnificent country by going up the Shire until we reached the Lake from which it flows. We think that our Heavenly Father has work for us there in suppressing the trade in slaves. We were much deceived in our ship by a person who making great pretensions

to piety tried to turn the
whole Expedition to his
own wordly advantage
Whatever you do in life be

[0004]

honest and sincere in serving
both God & man. The untruths
this man had to tell to cover
his deceit & selfishness were fright-
ful. The Lord bless & keep
you from all evil and grant
that no sin may have
dominion over you.

A mail bag which was lost
here by the boat being capsized
was found and carried to Kilimane
and thence to Tette. Hope a letter
from you is in it but ten to one
if it is readable now after being
like Jonah in the sea but not in the
whale's belly
