Bombay 13 Dec^r
1865

My Dear General Sabine

By some un-mistake of the magnetic had been on board the Nyassa and clearing her out found them. I delivered them to M^r Chambers the Observatory who thinks that

[0002] may prefer being used here having them sent . A small accompanies other instrument My brothers observation book was in the so as Mr had calculated observations home he may look over those yet sent and they may confirmatory

[0003] otherwise

My observation and com-of chronometers have all to the Cape probably M^r the assistant to
Sir Thomas Maclear be able to the exact & Latitude the places where were

[0004] also the mean . M^r great pains the observations having all the may be able I have no doubt will be willing give the required time may be

I am in daily of getting from this to . With kind to M^{rs} Sabine am &c David Livingstone
The instruments are not so bad as I expected, this be from having been carefully dried after
