[0001]

have to write despatches. Will you let know before the bishop goes down

Cataracts of Shire

~~3^d August~~[July]

1863

My Dear Waller

We send a bit of beef you and such your companions can eat it - and their acceptance the same. Meller me that the bishop is - alas the goats! You Dean

[0002] 's story about

"What will the [...] [poor]do now" or to that effect am very glad to that now have a head & energetic one too very sorry to of the feeble of our friend

Procter. I trust that the complaint will take a turn - were all the better our trip though

[0003] had sneezings coming back the ship. I feel ½ a horse stronger - 7 days from boat to this - it a pleasure

& not a toil to for level . The boat burned by

(say the Manganja) Ajawa - by burning the grass say for the

[0004] for 50 yards were killed fire and all the

debris - copper iron

&c were left where boat fell.

We got plenty of fowl but no could be seen the long grass - beginning cultivate - but in & trembling the Ajawa - could no news of the beyond

[0005] been good to me a note of and begs words to you . I think if have no objection had better hand all Thornton's to the mission 2 Rifles & gear with bills - to be sent his brother - one shew that we have it & the other to paid Clemantino

David Livingstone

>Private

I had come to the con

-clusion that no good be done by Expedition the subjects His Most Faithful were allowed follow on our and spoil by their slave and told

Earl Russell this - He does refer to this

you done with the Camera Lucida?

[0006]

in his instructions withdraw as it perhaps be in a statesman do so - We cant down till the flood in without the - and (shan't) it sooner would have come to welcome

Bishop Tozer but much to do here I hope he be content a welcome paper which now send - eldest boy arrived at

Natal on his to join us will be one in our crew at least Lady Nyassa

M^{rs} Burrup
