~~CLVIX~~~~Note[Journal]~~~~Note~~

The foregoing
Note to be amplified & sent to the
"Times" in laughing forebodings of his
awful-ire-Jupiter tonans

Journal some Manyema are
going with us to Ujiji = Arabs
anxious to hear my opinion of the
Bloody massacre of Nyangwe
but I declining to enter on it - They
know all about it already -

30th July 1871 left and went
about 3 miles to a village
overlooking the Shokoye a man
a little ill refuses to march
though the others carry his
bundle = - They send thirty
tusks with us and are glad
of the opportunity to get more
goods from Ujiji - about a
dozen Manyema go the
first that ever travelled so
far

31st came yesterday to
village on hill and today
went through the defile between
mt Kimazi and Kiyila
a cavern on the pass side
of the latter with a slatactite
pillar in entrance = came
on to Mangala's numerous
villages and two being ill
on the 1st August = Wedens
day = we rest - a large
market assembles in
their midst -
CXXXVI Journal =

5 June 1871
men delayed for want of a canoe to ferry them

across - chitoka today brings many - The
speak to him only but must I fear seize
canoes for there is no honour among them
I have been here for two months negotiating
for one and after paying an exorbitant
price find that I am the victim of deliberate
falsehood = Hassani was all day yesterday
talking to those who promised canoes and
he will get none = No one can conceive how
they dawdle and lie to get goods they mean
not to pay - The feeling of importance imparted
by haggling with strangers is dear to their hearts.

6th Mokandira's child died so we
are again hindered from going = Market
people beaten and plundered I paid
some who were robbed by my men slaves
I am sick at heart in knowing of these
outrages = Manyema are bad but slaves
ten times worse -

7th hindered by canoe though paid for
being given to another - I fear that we must
march on land which in front is extremely
wet and muddy -

8th River rose again six inches and
then fell three = water very dark brown &
much wreck - duckweed & grassy islands
float down = Rain nearly ceased = Great
masses of cloud float down from NorWest
but more frequently go up from NorEast -

9th Men went yesterday afternoon
to Kalenga - He refuses to refund the price
of the canoe to anyone but Abed = tries
to draw the real owner into a scrape by
complaining that he refused his slave as
price of the canoe and goats too = We have
nought to do with that and Think it best to
retire and let Abed punish him [^][if] he
likes - Hassani's canoes not come =
so we go on foot day after tomorrow
It is very grievous to be cheated after
losing nearly three months in the business
but Kalenga has no canoe and I must not
be the first to do what may be called injustice
The Arabs would like to see me using force
Dugumbe delays strangely but probably
by his divination declaring all this month

to be most unlucky - Wends tonight =
Arab fifth month - Lord help me
