14<sup>th</sup> January 1858

My Lord Ebury

I beg leave to my hearty thanks the kind expressions in your of the 2<sup>d</sup> ( Jan<sup>y</sup>.) also for the kind which prompted to bring the subject the Homoeopathic system my notice. I tried

[0002] whole range of globules on natives of Africa & without producing or a single . This was the also with my father law M<sup>r</sup> Moffat & a cause of regret as these forms medicine are so very .

Among Boers, half castes others who are to use coffee condiments &c the case

[0003] different. There the were often very as there is the time of their exhibition a strict enforce of proper regimen. this latter I found pills quite as in curing complaints. And consequently became little sceptical as to the of the globules. has done good in exploding overdrugging system prevailed in this

[0004] as it shewed much unassisted can do. but pinning our to the system think it would be fair those who believe it to shew what effected by their in contradistinction what is effected by . I never met who would pretend shew this. and as no follow in the constitution the diet is of the kind I am disposed

[0005] attribute the effects have observed the regimen allowing to have fair .

I passed through usual medical but not taught

"Allopathy" though have seen statements by persons attended the classes to the

[0006] that they adopting the Homoeopathic had been converted Allopathic . I dont at your speaking with of the "thing Allopathy" for must have been under your by those who in Homoeopathy a nickname they have

[0007] . I was taught Eclectic system .e. to choose the out of all systems - (and systems there been, each of had as much on our regard cures effected Homoeopathy) - and leave the nonsense much as possible . I am sensible no mental bias

[0008] Homoeopathy only wish that I find a tenth part it of the good some therein but I could trust my own in a serious illness it and I hope your will not you really need lean on alone

Again thanking your for kindly to me I am

Truly Yours

David Livingstone
