Hadley Green

10 th July

My Dear Shaw

he little girls'
eyes having become
worse from a
slight cold I send
her to Lawrence
if you will
kindly take her

[0002]

I have given her
a little of the
tincture of the
muriate of iron
& applied a
Colly^m of nitrate
of silver 1 1/2 gr to
the ounce of water
that 's all I have
done - complains of weariness

[0003]

& headache - probably
effects of quick
growth. Her
mother will
answer any other
questions.

Will you introduce
M^{rs} L to Stanford
or get some
envelopes for
her - stamped
& gummed.

[0004]

I shall come tomorrow

to the Physicians
shall I call at
Lawrence's for
you or at the
R.G.S. Milne wants to present
a book on China
to the Soc. I say
yes to him.

Ever Yours

D Livingstone

I am going to Exeter Hall
on Sunday
