Cataracts 2 June
1863

My Dear HW

I send the
brass wire you
requested by the
Serrna men who
came with the
cattle and hope it
will serve your
purpose.

We have your
bulls to break
in - the cows
unfortunately
[0002]
ran dry in the
way. but our
Johanna cows
send to promise
better things.

You did not
mention whether
you had "All the
year round" or not
I am afraid our
worthy seamen
may have made
off with it.

[0003]

If I were not tired
with writing vile
Portuguese I might
congratulate you
on the sympathy
some folks shew
you in reference
to the mission
people behaving

so badly. The
weather is com
pletely changed I
think - 49° here
this morning &
our general health
[0004]
is improving - I hope
Procter will soon
be himself again
with kind salutations
to Rowley I am &c

D Livingstone
