1857

My Dear D^r Hooker
I beg leave enclose another my lame . It on the of the
Zambesi and very pretty

[0002] has no root in soil but quite with water. this preserved appearance is much . A
plant by the Alfacinya

[0003]

"lettuce" from its to plant also on the water great quantities down a called Shire into the
Zambesi. It is quite to the . It is that account

[0004] mention it in the . I saw it Oxford but the has escaped . It is like a cabbage-
plant appeared the same time I dont trouble with but mention as to me a . It called Njefu

[0005] has a leafe this size & shape there is nut which

Sebituane the liked so he it a of the tribute

[0006] the tribes subjected. liked those I and they floating company the Alfacinya you
can me the name the last

[0007] shall feel obliged do not pray you much on the subject. Many hearty thanks your
notes of which duly to . As also

[0008] notes from

M^r Westwood which I am thankful

Please present kindest to
M^{rs} H& believe Most truly

Yours

David Livingstone
