Hadley Green

22 August

1857

My Dear Sir

I was absent untill 8 P M. & fear there is chance of this reaching tomorrow. I shall leave send to be left on Monday Maclears work far as I have it, your work and my book, at 3 Exchange buildings I have not any Nautical

[0002] by me. The observation is quite a mass of . It contains in a history of my gropings calculating my positions the most simple humdrum . I fear most the which must have in transcribing. The of paper put in were the Astronomer Royal indicate those I have doubts on. Arrowsmith to give his deductions at Kalomo & another the confluence of Kafue & Zambesi seem

[0003] , and he says that Tete downwards all are much to the Westward. His of all my observations

(12) at Tete make it 33° 33'

How many pages will require? I have not spoken Murray yet but am very gratified & obliged your undertaking this . If the bulk is much for the boards the book then the ( R.G.S.) do that work but suppose the sooner they published the better you could give me an of the bulk I should

[0004] to Murray at once. let me know before Wednes as I go off to Dublin on that or on Thursday.

I am quite at a loss for Almanacs for am not acquainted with of the Societies except ( R.G.S.) and I believe

D<sup>r</sup> Shaw is off on Monday Dublin But I shall .

I am Dear Sir

Most truly yours

David Livingstone

I shall send to

Pimlico

Captain Toynbee
