[5-6-9] Hamilton [MS 8/12]

1st Sept

1864

My Dear Sir

Absence in
the Highlands has
prevented my
answering your
letter of the 9th ult
sooner.

All the insects
collected were for-
warded to England
at different times
and the Bristol
Museum has had
[0002]

the choice. The
parasites you wish
are I suppose in
the possession
of the Trustees.
I have none. More
on the Giraffe
Rhinoceros &c
are identical viz
a large tick with
yellow spots.
Another small one
of a dark brown
colour is on

[0003]

nearly all animals.

I am &c

David Livingstone

a large louse is
met with on

Pelicans - specimens
of all were sent
home. I failed to
secure the leeches
in crocodile's
mouths.
